LAGGING CHITA ENTERPRISES LISTED -- Zabaykal'skiy Rabochiy, No 123, 25 Jun 49

Chita Oblast industry has successfully completed the first quarter and May plans, which have been increased as compared with the 1948 plans, but completed only 98.7 percent of the April plan. Some enterprises are continually failing to meet the monthly plans. The Sherlovaya Gora and the Zabaykal'skiy combines fell short of the 5-month plan, while the metallurgical industry as a whole completed the plan. In the coal industry, the Torm Mine did not complete the 5-month plan. Timber floating is progressing poorly in the Chita, Cherekhovo, and Krasnoyarsk timber managements.

Many enterprises and entire branches of industry have not yet attained the prewar level of labor productivity. The Kalanguy Mine has increased fluor spar output 50 percent over 1940, but its labor productivity is below prewar. The increase in labor productivity in the coal and timber industries is lagging behind the increase in technical equipment.

KADALA MINE WINS CHITA COMPETITION -- Zabaykal'skiy Rabochiy, No 113, 11 Jun 49

The Chita City Committee VKP(b) and the City Executive Committee report that the Kadala Mine was the victor in the May competition among the city's industrial and railroad transport enterprises. The mine exceeded the coal-mining plan, the plan for basic preparatory work, and the plan for labor productivity. The mine was awarded the Transferable Red Banner of the city Party committee and executive committee. The Mine imeni Lenin, the railroad car depot, the power train (energopoyezd), and Kadala Station were cited for good work during the month.

Zabaykal'skiy Rabochiy, No 137, 15 Jul 49

The Chita Oblast Committee VKP(b) and the oblast executive committee have awarded the Transferable Red Banner to the Kadala Mine for its success in the second-quarter competition among the oblast's enterprises. During the second quarter, the mine exceeded the plans for coal mining, basic mine development, and labor productivity, and increased output over the first quarter. The Mine imeni Lenin and the Bukachacha Mine Administration were cited for good work during the quarter.

The "Soyuzplavik" Trust took first place among enterprises of the mining industry. The trust exceeded the plan for gross production, mining, hauling and shipping fluor spar, and was awarded the Transferable Red Banner of the oblast committees. The following were cited for good work during the second quarter: "Baleyzoloto" and "Darasunzoloto" combines, the "Zabaykalzoloto" Trust, Onon Tin Combine, "Voetsibolovo," Shakhtama Mine Administration, and the Petrovsk-Zabaykal'skiy Metallurgical Plant.
